

AVK ENVISIONS

KAS PRELIMS 2011

PAPER-I • COMPLETE PYQ SYNOPSIS

100 Questions • Question-wise Analysis

Question → Options → Answer → About → How to Solve → Core → Future Angle

WHAT THIS SYNOPSIS GIVES YOU

A complete question-wise revision resource built directly around the 2011 Paper-I.

01

PYQ-first learning

Every question is retained with its options and answer, so the original exam context stays visible.

02

Concept beyond the answer

The Core converts a one-time factual question into a compact, reusable exam concept.

03

Future-angle preparation

Related questions are given with answers, helping you revise likely KAS-style variations without searching elsewhere.

04

Smart historical context

Where a 2011-era fact, policy or office-holder is time-sensitive, the synopsis separates the historical position from the present context.

REVISION PRINCIPLE

Do not memorise the PYQ in isolation. Use the answer as an anchor, the Core as the concept, and the Future Angle as the next possible question.

Q1. Who won her first Grand Slam title by winning the Australian Open 2012?

Options:

1. Victoria Azarenka
2. Svetlana Kuznetsova
3. Maria Sharapova
4. Caroline Wozniacki

Answer: 1. Victoria Azarenka

About the question:

Azarenka won her first Grand Slam at the 2012 Australian Open. The question is essentially testing current sports

awareness, but it can be converted into static knowledge about the four Grand Slam tournaments.

How to solve:

- Sharapova → Australian Open winner in 2008.
 - Kuznetsova → US Open 2004, French Open 2009.
 - Wozniacki → former World No.1, but no Grand Slam at that stage.
- Azarenka.

Core:

The four Grand Slams are:

- Australian Open → Melbourne → hard court
- French Open → Paris → clay
- Wimbledon → London → grass
- US Open → New York → hard court

Future angle:

- Australian Open is held where? → Melbourne
- French Open is played on? → Clay
- Wimbledon is played on? → Grass
- Four Grand Slams? → Australian Open, French Open, Wimbledon, US Open

Q2. Fifth World Future Energy Summit was held in:

Options:

1. Abu Dhabi
2. New Delhi
3. Tehran
4. Dhaka

Answer: 1. Abu Dhabi

About the question:

The summit was held in Abu Dhabi in January 2012. It dealt broadly with renewable energy, clean technology and

sustainable energy development.

How to solve:

Future Energy → Masdar → Abu Dhabi is the useful association.

Core:

When KPSC asks about an international summit, remember:

Summit → theme → host city → country → organisation

Future angle:

- Masdar City → Abu Dhabi, UAE
- Broad focus → clean/renewable energy and sustainability
- Current energy-transition themes → solar, wind, storage, hydrogen, electrification and decarbonisation

Q3. Where was the 14th World Sanskrit Conference held?

Options:

1. Kyoto, Japan
2. Beijing, China
3. Colombo, Sri Lanka
4. Kuala Lumpur, Malaysia

Answer: 1. Kyoto, Japan

About the question:

The 15th Conference was being held in New Delhi in 2012. The question asks you to identify the previous edition.

How to solve:

This is a sequence/previous-edition question rather than a general Sanskrit question.

Core:

World Sanskrit Conference covers Sanskrit language, literature, philosophy and Indological studies.

Future angle:

- 15th → New Delhi, 2012
- 19th → Kathmandu, 2025
- 20th → Mumbai, 2027
- Broad interval → approximately three years

Q4. India's IMR dropped from ___ to ___ per 1,000 live births during 2010?

Options:

1. 50 → 47
2. 52 → 49
3. 53 → 48
4. 48 → 47

Answer: 1. 50 → 47

About the question:

This is based on the Sample Registration System (SRS) data of the Registrar General of India.

How to solve:

Direct data recall. There is no dependable elimination formula.

Core:

IMR = deaths of infants below one year per 1,000 live births.

Do not confuse:

- IMR → infant deaths
- MMR → maternal deaths
- TFR → fertility
- Life expectancy → average expected lifespan

Future angle:

- IMR measured per → 1,000 live births
- SRS is associated with → Registrar General of India

- Modern questions can ask the trend, causes of decline or state-wise variation, rather than the old figure.

Q5. Which two countries had female infant mortality higher than male infant mortality?

Options:

1. Venezuela and Cambodia
2. Nigeria and Ghana
3. China and India
4. Indonesia and China

Answer: 3. China and India

About the question:

The unusual feature is female infant mortality exceeding male infant mortality—a demographic pattern that can indicate social factors in addition to biological differences.

How to solve:

Don't interpret it as "countries with highest infant mortality." Focus on the unusual female > male pattern.

Core:

Normally, male infants have a biological mortality disadvantage. An unusually adverse female pattern can be associated with unequal nutrition, healthcare access and gender discrimination.

Future angle:

- Census 2011 child sex ratio → 919 females/1,000 males
- Sex ratio → females per 1,000 males
- Child sex ratio → females aged 0–6 per 1,000 males aged 0–6

Q6. What is SHADE?

Options:

1. Pact among naval forces of India, Japan and China
2. Pact among armed forces of India, Japan and China
3. Pact among naval forces of India, Japan and Russia
4. Pact among armed forces of India, Japan and Russia

Answer: 1. India–Japan–China naval forces

About the question:

SHADE refers to Shared Awareness and Deconfliction, associated with coordination in maritime security/anti-piracy operations.

How to solve:

Two-step elimination:

1. SHADE is maritime → naval, not all armed forces.
2. Countries in this context → India, Japan and China.

Core:

This is fundamentally a maritime security/anti-piracy concept.

Future angle:

- SHADE → anti-piracy coordination
- QUAD → India, USA, Japan, Australia
- IONS → Indian Ocean Naval Symposium

Q7. Mana Airport, Raipur was renamed:

Options:

1. Swami Vivekanand
2. Ramakrishna Paramahansa
3. Mahatma Gandhi
4. Jawaharlal Nehru

Answer: 1. Swami Vivekananda Airport

About the question:

Mana Airport was renamed after Swami Vivekananda.

How to solve:

Association:

Mana → Raipur → Chhattisgarh → Vivekananda

Ramakrishna is the trap because of his close association with Vivekananda.

Core:

Renaming questions should be learnt as:

Old name → new name → place → personality

Future angle:

- Swami Vivekananda Airport → Raipur
- State → Chhattisgarh
- Airport operator → Airports Authority of India

Q8. T-cells are a:

Options:

1. White Blood Cell
2. Red Blood Cell
3. Liver Cell
4. Cancerous Cell

Answer: 1. White Blood Cell

About the question:

T-cells are T-lymphocytes, a type of WBC involved in adaptive immunity.

How to solve:

T-cell → lymphocyte → WBC

Then eliminate:

RBC → oxygen transport; liver cell → metabolism; cancer cell → abnormal cell.

Core:

- B-cells → antibodies
- T-cells → cell-mediated immunity
- Helper T-cells → coordinate immune response
- Cytotoxic T-cells → destroy infected/abnormal cells

Future angle:

- Antibody-producing cells → B-cell-derived plasma cells
- Cell-mediated immunity → T-cells
- T-cell that directly kills abnormal/infected cells → cytotoxic T-cell

Q9. Which PSU lender called off its Visa-Elavon joint venture?

Options:

1. Union Bank
2. State Bank of India
3. Syndicate Bank
4. Corporation Bank

Answer: 2. State Bank of India

About the question:

The important concept is merchant acquiring—the merchant-side part of card-payment infrastructure.

How to solve:

The bank itself requires current-affairs recall; the term “merchant acquiring” does not logically identify SBI.

Core:

- Issuer → provides the card/payment instrument to customer.
- Acquirer → serves the merchant and enables acceptance/settlement.
- Card network → Visa, Mastercard, RuPay etc.

Future angle:

- UPI operator → NPCI
- UPI → Unified Payments Interface
- Issuer → customer side
- Acquirer → merchant side

Q10. Indian Car of the Year 2012**Options:**

1. Toyota Etios Liva
2. Maruti Suzuki Swift
3. Hyundai Verna
4. Hyundai Eon

Answer: 2. Maruti Suzuki Swift

About the question:

A current-affairs question on the Indian Car of the Year (ICOTY) award.

How to solve:

Mostly direct recall; all four options are plausible automobile models, so elimination is weak.

Core:

Learn awards as:

Award → year → winner → manufacturer → category

Future angle:

- ICOTY 2026 → Maruti Suzuki Victoris
- Green Car Award 2026 → Mahindra XEV 9e
- Premium Car Award 2026 → Volkswagen Golf GTI

Q11. One of Karnataka’s sanctuaries that has been taken out of the Tiger Conservation

Programme is:

Options:

1. Bandipur National Park
2. Anshi National Park
3. Nagarhole National Park

4. Bhadra Wildlife Sanctuary

Answer: 1. Bandipur National Park (as keyed in the earlier analysis)

About the question:

This is a Karnataka wildlife current-affairs question. The larger concept is protected-area status vs tiger-conservation status.

How to solve:

The question is factual rather than conceptual, so remember the status of Karnataka's major protected areas.

Core:

Karnataka's major tiger landscapes include Bandipur, Nagarhole and Bhadra, while the Kali/Anshi landscape is important for broader biodiversity.

Future angle:

- Bandipur → Tiger Reserve/National Park
- Nagarhole → Tiger Reserve/National Park
- Bhadra → Tiger Reserve
- Kali → Tiger Reserve

Q12. NASA announced it had found the most massive ever:**Options:**

1. Star
2. Planet
3. Black hole
4. Alien

Answer: 3. Black hole

About the question:

This is astronomy current affairs.

How to solve:

Among the options, "most massive astronomical object" in this context points to a black hole.

Core:

A black hole is a region of extremely strong gravity bounded by an event horizon. Modern astronomy questions may connect black holes with gravitational waves and observations by space telescopes.

Future angle:

- Boundary of a black hole → event horizon
- Northern polar light → Aurora Borealis
- Southern polar light → Aurora Australis
- Gravitational-wave detector → LIGO

Q13. Smart-e-Pants are:**Options:**

1. Underwear monitoring vital signs and uploading information to a mobile device
2. Diapers notifying parents
3. Pants connected to a video game
4. Electronic shorts for spinal-cord injuries

Answer: 1

About the question:

An early example of wearable health technology—sensors integrated into clothing to monitor physiological information.

How to solve:

“Smart clothing + vital signs + mobile device” → wearable healthcare.

Core:

Wearable technology combines:

sensors → data collection → connectivity → monitoring

Future angle:

- IoT → Internet of Things
- Health wearables → smartwatch, biosensors, fitness trackers
- Major modern extension → remote patient monitoring

Q14. Country most optimistic in Nielsen Global Consumer Confidence survey:

Options:

1. India
2. Australia
3. Germany
4. Japan

Answer: 1. India

About the question:

Consumer confidence reflects people's perceptions of employment, economic conditions and spending prospects.

How to solve:

Direct survey recall.

Core:

Don't confuse:

consumer confidence → sentiment/perception
with

GDP → measured economic output.

Future angle:

KPSC can ask:

- What does consumer confidence indicate? → Consumer economic sentiment
- What can higher confidence encourage? → Higher willingness to spend
- What should be remembered about an index? → Publisher + parameter + India's position

Q15. Which neighbouring country sought Karnataka's help in tiger conservation?

Options:

1. Bhutan
2. Myanmar
3. Sri Lanka
4. Bangladesh

Answer: 1. Bhutan

About the question:

It connects Karnataka's wildlife-management expertise with international tiger conservation.

How to solve:

Sri Lanka is immediately eliminated—it has no wild tiger population. Then the specific current-affairs fact points to Bhutan.

Core:

India is a major tiger-range country and has expertise relevant to habitat management, tiger monitoring and conservation.

Future angle:

Tiger-range countries include India, Nepal, Bhutan, Bangladesh, Myanmar, Russia and several Southeast Asian countries.

Q16. Metal found more effective than lead in cancer chemotherapy with fewer side

effects:

Options:

1. Silver
2. Copper
3. Zinc
4. Selenium

Answer: 2. Copper

About the question:

The question refers to contemporary research on metal-based compounds in cancer treatment.

How to solve:

Direct science-current-affairs recall; the options do not provide a reliable logical route.

Core:

For element-based science questions, learn:

element → biological role → medical/industrial use → toxicity

Copper is an essential trace element, but excessive exposure can be harmful.

Future angle:

KPSC can ask:

- Iron → haemoglobin
- Iodine → thyroid hormones
- Zinc → enzyme/immune functions
- Selenium → antioxidant-related enzymes

Q17. St James's Palace announced that it would:

Options:

1. Close for two-year renovation
2. Allow tourists into Queen's private quarters
3. Install a helicopter pad
4. Rent rooms during London Olympics

Answer: 4. Rent rooms during the London Olympics

About the question:

A very specific current-affairs event linked to the 2012 London Olympics.

How to solve:

Pure recall. The unusual nature of option 4 makes it the intended current-affairs fact.

Core:

Major international events create questions beyond sport:

venues + security + accommodation + sponsorship + infrastructure.

Future angle:

For Olympics questions, learn:

- host city
- host country
- venues
- mascot
- opening/closing
- major controversies/developments.

Q18. Which country agreed with the international effort to list Chrysotile Asbestos as

hazardous?

Options:

1. India
2. Ukraine
3. Kyrgyzstan
4. Canada

Answer: 4. Canada (as given in the earlier analysis/source key)

About the question:

Chrysotile is a form of asbestos, associated with serious health risks including asbestos-related cancers.

How to solve:

This is a historical current-affairs recall question. The key concept is the international regulation of hazardous chemicals.

Core:

The Rotterdam Convention operates through the Prior Informed Consent (PIC) procedure for certain hazardous chemicals and pesticides in international trade.

Future angle:

- Chrysotile → asbestos
- Major health concern → asbestos-related disease/cancer
- Rotterdam Convention → Prior Informed Consent
- Basel Convention → hazardous waste

Q19. Which US Republican presidential hopeful first dropped out after the Iowa

caucuses?

Options:

1. Jon Huntsman

2. Michelle Bachmann
3. Herman Cain
4. Rick Santorum

Answer: 1. Jon Huntsman

About the question:

This tests the 2012 US presidential primary race.

How to solve:

Direct current-affairs recall.

Core:

US presidential election questions should be understood through:

Primaries/caucuses → party nominee → general election → Electoral College

Future angle:

- US President's term → 4 years
- Major parties → Democratic and Republican
- President chosen formally through → Electoral College

Q20. Northernmost known Harappan settlement in India:

Options:

1. Mandu
2. Harappa
3. Lothal
4. Ropar

Answer: 4. Ropar/Rupnagar

About the question:

Ropar (Rupnagar) in Punjab is an important Harappan site and was the northernmost option among the Indian sites listed.

How to solve:

Geographical elimination:

- Lothal → Gujarat
- Mandu → Madhya Pradesh
- Harappa → present-day Pakistan
- Ropar → Punjab → northern India

Core:

Harappan sites should be learnt as:

Site → present state/country → river/region → special feature

Examples:

- Lothal → Gujarat → dockyard
- Dholavira → Gujarat → water management
- Kalibangan → Rajasthan → ploughed field
- Ropar → Punjab

Future angle:

KPSC can give a site and ask its state, river, distinctive archaeological feature or geographical position.

Q21-40

Q21. Kannada writers who won Jnanpith and Saraswati Samman respectively in 2011

Options:

1. S.L. Bhyrappa → Chandrashekhara Kambara
2. Chandrashekhara Kambara → S.L. Bhyrappa
3. U.R. Ananthamurthy → S.L. Bhyrappa
4. Chandrashekhara Kambara → Chidanandamurthy

Answer: 2. Chandrashekhara Kambara → S.L. Bhyrappa

About:

The question tests Kannada literary personalities through award + person association.

How to solve:

Learn the two awards separately, then pair them.

Core:

- Jnanpith → India's major literary honour
- Kambara → major Kannada poet, playwright and folklorist
- Bhyrappa → major Kannada novelist; Mandira received Saraswati Samman

Future angle:

KPSC can ask writer → work → award → language.

Q22. Salman Rushdie controversy at which Literary Festival?

Options:

1. Bikaner
2. Udaipur
3. Jaipur
4. Ahmedabad

Answer: 3. Jaipur

About:

The reference is to the Jaipur Literature Festival.

How to solve:

Major Indian literature festival + Rushdie controversy → Jaipur.

Core:

Cultural current affairs are often tested through event + location + personality/issue.

Future angle:

- JLF → Jaipur
- Rajasthan → major cultural/literary tourism state
- KPSC can ask festival → city/state.

Q23. India and Bangladesh were negotiating water sharing of:

Options:

1. Ganga
2. Brahmaputra
3. Vaarana
4. Teesta

Answer: 4. Teesta

About:

Teesta is a major transboundary river shared by India and Bangladesh, and its water-sharing issue has been an important bilateral matter.

How to solve:

The Ganga already had the 1996 Ganga Water Sharing Treaty; the contemporary dispute referred to here was Teesta.

Core:

Teesta:
origin → Sikkim → West Bengal → Bangladesh

Future angle:

- Ganga Water Treaty → 1996
- Teesta → India-Bangladesh
- Transboundary river questions → learn source + states + countries + agreement/dispute.

Q24. Intercensal period and next Census

Options:

1. 5 years, 2016
2. 10 years, 2021
3. 10 years, 2020
4. 5 years, 2015

Answer: 2. 10 years, 2021

About:

India's Census is normally conducted every 10 years.

How to solve:

2011 + 10 = 2021.

Core:

Census questions should connect:
Census year + population + literacy + sex ratio + density + growth rate.

Future angle:

- Census 2011 → 15th Census
- Census normally → decennial
- Current Census exercise → 2027

Q25. Chief Justices of India and Karnataka

Options:

1. Vikramjit Sen – S.H. Kapadia
2. S.H. Kapadia – V.B. Sabhahith
3. S.H. Kapadia – Vikramjit Sen
4. Sowmitra Sen – J.S. Khehar

Answer: 3. S.H. Kapadia – Vikramjit Sen

About:

This is a time-sensitive constitutional office-holder question.

How to solve:

First establish the date/period; then identify the office-holder.

Core:

For office-holder questions learn:

person → office → appointment authority → term/period.

Future angle:

- Supreme Court judges appointed by → President
- Chief Justice of India → appointed by President
- Current office-holder questions → always attach a date/year.

Q26. Pro-democratic forces and Arab Spring**Options:**

1. Libya – Arab Summer
2. Libya – Arab Spring
3. Egypt – Arab Summer
4. Egypt – Arab Spring

Answer: 4. Egypt – Arab Spring

About:

The Arab Spring was a wave of political uprisings that began in the Arab world around 2010–11.

How to solve:

“Arab Summer” is not the accepted term. Then Egypt is the intended country.

Core:

Important sequence:

Tunisia → Egypt → Libya/Yemen/Syria and wider regional unrest

Future angle:

- Arab Spring began in → Tunisia
- Egypt's long-serving president who resigned → Hosni Mubarak
- Major regional impact → political instability, conflict and humanitarian crises

Q27. Middle-East country facing serious internal political/humanitarian problems in

Jan–Feb 2012

Options:

1. Saudi Arabia
2. Yemen
3. Syria
4. Iraq

Answer: 3. Syria

About:

The question refers to the emerging Syrian crisis and calls for international/UN action.

How to solve:

The timing and humanitarian-crisis clue point to Syria.

Core:

Modern conflict questions should be understood through:

political trigger → conflict → international response → humanitarian consequences.

Future angle:

- Syria's capital → Damascus
- Major international organisation involved → United Nations

- Major humanitarian consequences → displacement/refugees/civilian suffering

Q28. 2012 was declared Year of Mathematics for Ramanujan's:

Options:

1. 75th birthday
2. 100th birthday
3. 125th birthday
4. 150th birthday

Answer: 3. 125th birthday

How to solve:

Ramanujan was born in 1887.

$$2012 - 1887 = 125.$$

Core:

Srinivasa Ramanujan → number theory, infinite series, mathematical analysis.

Future angle:

- Birth date → 22 December 1887
- National Mathematics Day → 22 December
- Major field → Mathematics/number theory

Q29. Karnataka creamy-layer income limit raised from:

Options:

1. ₹1 lakh → ₹2 lakh
2. ₹2 lakh → ₹3.5 lakh
3. ₹2 lakh → ₹4 lakh
4. ₹3 lakh → ₹3.5 lakh

Answer: 2. ₹2 lakh → ₹3.5 lakh

About:

The creamy layer refers to the relatively advanced section among OBCs excluded from reservation benefits under the applicable criteria.

How to solve:

This is policy-number recall. Do not try to derive the amount.

Core:

The important conceptual distinction:

OBC category ≠ automatically entitled regardless of creamy-layer status.

The income criterion is policy-sensitive and can change.

Future angle:

- Constitutional basis for OBC reservation → Article 16(4)
- Central creamy-layer threshold → ₹8 lakh under the widely used central criterion, subject to policy rules/changes.
- State-specific thresholds may differ.

Q30. Election Commission ordered masking of party-symbol statues in:

Options:

1. Himachal Pradesh
2. Jharkhand

3. Madhya Pradesh
4. Uttar Pradesh

Answer: 4. Uttar Pradesh

About:

The issue concerned statues representing a political party's symbol during the election period.

How to solve:

2012 election context → Uttar Pradesh.

Core:

The underlying topic is Election Commission + Model Code of Conduct + political symbols.

Future angle:

KPSC can ask:

- Constitutional body conducting elections → Election Commission of India
- Article → 324
- Election conduct → Model Code of Conduct
- Party symbol recognition → ECI

Q31. Jana Gana Mana was composed by and had completed:

Options:

1. Bankim Chandra Chatterjee, 100th
2. Rabindranath Tagore, 100th
3. Bankim Chandra Chatterjee, 125th
4. Rabindranath Tagore, 125th

Answer: 2. Rabindranath Tagore, 100th

How to solve:

Permanent association:

Jana Gana Mana → Tagore

Vande Mataram → Bankim

Core:

National Anthem:

Jana Gana Mana → Rabindranath Tagore

National Song:

Vande Mataram → Bankim Chandra Chattopadhyay

Future angle:

- National Anthem adopted → 24 January 1950
- National Song → Vande Mataram
- Author → Bankim Chandra Chattopadhyay

Q32. US Presidential elections are held every __ years and were scheduled for:

Options:

1. 5 years – November 2012
2. 5 years – November 2013
3. 4 years – November 2012
4. 4 years – November 2013

Answer: 3. 4 years – November 2012

About:

US presidential elections follow a four-year cycle.

How to solve:

Term = 4 years → 2012 was the scheduled election year.

Core:

US President is elected through the Electoral College, unlike India's indirect election by a specifically constituted electoral college.

Future angle:

- US presidential term → 4 years
- Maximum elected terms → 2
- Formal mechanism → Electoral College

Q33. Police revolt in February 2012 forced which President out of office?

Options:

1. Maldives
2. Lakshadweep
3. Uganda
4. Philippines

Answer: 1. Maldives

How to solve:

Lakshadweep is an Indian Union Territory, not a country. The event points to Maldives.

Core:

Maldives is strategically important to India because of its Indian Ocean location and maritime position.

Future angle:

- Capital → Malé
- Region → Indian Ocean
- India-Maldives importance → maritime security, connectivity and strategic location

Q34. Cricket World Cup 2011 — two statements

- I. Final was played in Kolkata.
- II. Yuvraj Singh was Man of the Series.

Options:

1. Both true
2. Only I true
3. Only II true
4. Both false

Answer: 3. Only II true

How to solve:

Check independently:

- Final → Wankhede, Mumbai → I false
- Yuvraj → Player of Tournament → II true

Core:

Statement questions require separate verification of every statement.

Future angle:

- 2011 winner → India
- Runner-up → Sri Lanka

- Final → Wankhede Stadium, Mumbai
- Player of Tournament → Yuvraj Singh

Q35. Dow Chemicals / Fukushima

Statements:

- Strong dissent against Dow Chemicals' London Olympics sponsorship.
- Fukushima reactor was severely damaged by earth tremor in March 2011.

Options:

- Both true
- Only I true
- Only II true
- Both false

Answer: 2. Only I true (as keyed in the earlier analysis)

About:

The first statement relates to criticism of Dow's sponsorship because of its association with Union Carbide/Bhopal.

Fukushima's disaster involved the earthquake + tsunami, and the wording of the statement is technically important.

How to solve:

Read the wording precisely. Statement II reduces the disaster to "earth tremor"; the nuclear accident followed the combined earthquake-tsunami sequence.

Core:

11 March 2011 → earthquake → tsunami → Fukushima nuclear accident.

Future angle:

KPSC can ask:

- Fukushima → Japan
- Disaster date → 11 March 2011
- Major cause chain → earthquake + tsunami
- Bhopal disaster → 1984

Q36. British-Indian centenarian marathoner

Options:

- Milkha Singh
- Surya Veer Singh
- Gagan Singh
- Fauja Singh

Answer: 4. Fauja Singh

About:

Fauja Singh became internationally known for long-distance running at an exceptionally advanced age.

How to solve:

Centenarian + marathon → Fauja Singh.

Core:

Sports questions may test records and unusual achievements, not just tournament winners.

Future angle:

- Fauja Singh → long-distance running

- Milkha Singh → sprint/athletics
- “Flying Sikh” → Milkha Singh

Q37. “Human safaris” exposed exploitation of which protected tribe?

Options:

1. Santhal
2. Maram
3. Jarawa
4. Lambani

Answer: 3. Jarawa

About:

The Jarawa are an indigenous community of the Andaman Islands. The controversy involved tourists being taken through their territory to view them.

How to solve:

Andaman indigenous tribe → Jarawa.

Core:

Important Andaman communities:

- Jarawa
- Sentinelese
- Great Andamanese
- Onge
- Nicobarese/Shompen in broader Andaman-Nicobar tribal context

Future angle:

- Jarawa → Andaman Islands
- Sentinelese → North Sentinel Island
- Key issue → tribal rights, protection and ethical tourism

Q38. India-France Medium Multirole Combat Aircraft

Options:

1. Rafale
2. MiG
3. Eurofighter
4. Jaguar

Answer: 1. Rafale

About:

Rafale is a French multirole fighter aircraft.

How to solve:

France → Rafale.

Core:

Defence questions should be studied as:

weapon/platform → country → role → generation/capability → Indian connection

Future angle:

- Rafale → France
- Eurofighter Typhoon → multinational European programme
- MiG → Soviet/Russian aircraft family
- Jaguar → Anglo-French origin

Q39. Veteran diplomat and writer who passed away

Options:

1. M.L. Sondhi
2. A.K. Damodaran
3. Appadurai
4. Brijesh Mishra

Answer: 2. A.K. Damodaran

About:

The question tests a personality through profession + recent event.

How to solve:

Direct recall.

Core:

For personality current affairs, remember:

Name → profession → institution → major contribution

Future angle:

KPSC can convert this into:

- Who was the person?
- Which diplomatic post?
- Which organisation?
- Which book/work?
- What period?

Q40. Supreme Court cancelled how many 2G licences?

Options:

1. 102
2. 112
3. 122
4. 132

Answer: 3. 122

About:

The Supreme Court cancelled 122 telecom licences in the 2G spectrum case.

How to solve:

Direct numerical recall.

Core:

2G connects several important themes:

spectrum → public resource → telecom regulation → allocation policy → CAG → Supreme Court.

Future angle:

- Telecom regulator → TRAI
- Spectrum → public/national resource
- Modern extension → 4G/5G spectrum allocation

Q41-60

Q41. “Grand Old Man of India”

Options:

1. Lala Lajpat Rai
2. Bal Gangadhar Tilak
3. Surendranath Banerjee
4. Dadabhai Naoroji

Answer: 4. Dadabhai Naoroji

About:

Naoroji was a pioneering nationalist, founder of the Indian National Congress and propounder of the Drain Theory.

How to solve:

Title association:

- Naoroji → Grand Old Man
- Tilak → Lokmanya
- Lajpat Rai → Punjab Kesari

Core:

Naoroji → Drain of Wealth Theory → economic critique of colonial rule.

Future angle:

- Drain Theory → Dadabhai Naoroji
- “Lokmanya” → Tilak
- “Punjab Kesari” → Lala Lajpat Rai

Q42. Gandhi’s South African settlement

Options:

1. Phoenix Settlement
2. Sarvodaya Enclave
3. Young India
4. Unto the Last

Answer: 1. Phoenix Settlement

About:

Phoenix Settlement was established by Gandhi near Durban. It became part of his experiments in community living, self-reliance and social reform.

How to solve:

The word settlement eliminates:

- Young India → publication
- Unto the Last → Ruskin’s work

Core:

Gandhi’s South African period:

Phoenix Settlement + Tolstoy Farm + Indian Opinion + Satyagraha

Future angle:

- Indian Opinion → Gandhi’s newspaper in South Africa
- Tolstoy Farm → Gandhian community

- Ruskin's Unto This Last → important intellectual influence on Gandhi

Q43. Ashokan inscriptions

Statements:

- Most inscriptions were in Prakrit; northwest had Aramaic/Greek.
- Most Prakrit inscriptions used Brahmi.
- Some northwest inscriptions used Kharosthi.

Options:

- a and b
- Only a
- b and c
- a, b and c

Answer: 4. a, b and c

How to solve:

All three correspond to the known geographical distribution of Ashokan inscriptions.

Core:

Ashoka → Prakrit + Brahmi

Northwest → Kharosthi, Greek, Aramaic

This is a classic example of language + script + region.

Future angle:

- Kharosthi → northwestern Indian subcontinent
- Brahmi → major script of Ashokan inscriptions
- Ashokan inscriptions → primary sources for Mauryan history

Q44. Akbar's land classification

Statements:

- Polaj
- Parauti
- Chachar
- Banjar

Options:

- Only d
- a and b
- a, c and d
- All above

Answer: 4. All above

About:

Akbar's revenue system classified land according to its cultivation/fallow status.

How to solve:

All four are recognised categories.

Core:

- Polaj → regularly cultivated
- Parauti → temporarily fallow
- Chachar → fallow for a few years
- Banjar → uncultivated for longer period

Connect this with Todar Mal, Zabti and Dahsala.

Future angle:

- Dahsala → 10-year average assessment
- Todar Mal → Akbar's revenue administration
- Polaj → regularly cultivated land

Q45. 1857 — wrongly matched

Options:

1. Kunwar Singh – Bihar
2. Nana Saheb – Nagpur
3. Birjis Qadr – Lucknow
4. Shah Mal – Barout

Answer: 2. Nana Saheb – Nagpur

About:

Nana Saheb's principal centre was Kanpur, not Nagpur.

How to solve:

Use the 1857 geographical map:

- Kunwar Singh → Bihar
- Nana Saheb → Kanpur
- Birjis Qadr → Lucknow
- Shah Mal → Barout/Baghpat region

Core:

For 1857, always learn leader + centre + region.

Future angle:

- Delhi → Bahadur Shah Zafar
- Jhansi → Rani Lakshmibai
- Kanpur → Nana Saheb
- Lucknow → Begum Hazrat Mahal/Birjis Qadr
- Bihar → Kunwar Singh

Q46. Two proper industrial cities during colonial period

Options:

1. Calcutta and Bombay
2. Bombay and Madras
3. Jamshedpur and Kanpur
4. Jamshedpur and Bombay

Answer: 1. Calcutta and Bombay

About:

These cities developed as major colonial port, commercial and industrial centres.

How to solve:

Jamshedpur's industrial rise was later and strongly associated with Tata Steel.

Core:

Colonial industrialisation was closely linked to:
ports + trade + raw materials + British commercial interests.

Future angle:

- Jamshedpur → iron and steel
- Bombay → cotton textiles/port
- Calcutta → jute/port
- Kanpur → leather/textiles

Q47. Who advised Gandhi to travel around British India for a year?

Options:

1. Bal Gangadhar Tilak
2. Mohammed Ali Jinnah
3. Gopal Krishna Gokhale
4. Lala Lajpat Rai

Answer: 3. Gopal Krishna Gokhale

About:

Gokhale advised Gandhi to understand India closely before launching major political action.

How to solve:

Permanent association:

Gokhale → Gandhi's political mentor

Core:

Gokhale represented the moderate/reformist nationalist tradition and influenced Gandhi's approach to public service.

Future angle:

- Servants of India Society → Gopal Krishna Gokhale
- Gandhi's first major Indian satyagraha → Champaran, 1917
- Gandhi returned to India → 1915

Q48. Jinnah's Fourteen Points

Statements:

- a. Delhi Proposals
- b. Calcutta Amendments
- c. Separate Electorate
- d. Reservation for Muslims in Government service

Options:

1. a and b only
2. c and d only
3. a and d only
4. All above

Answer: 4. All above (as keyed in the source analysis)

About:

The question belongs to the constitutional negotiations surrounding the Nehru Report and Muslim political safeguards.

How to solve:

Treat the statements as part of the broader constitutional sequence rather than isolated facts.

Core:

Important sequence:

Nehru Report (1928) → Jinnah's Fourteen Points (1929) → Round Table Conferences → Communal Award → Poona Pact

Future angle:

- Nehru Report → 1928
- Fourteen Points → 1929
- Major demand → constitutional safeguards for Muslims, including representation/separate electorates

Q49. “Devanampriya” and “Priyadarshi”

Options:

1. Harshavardhana
2. Mahavira
3. Gautama Buddha
4. Ashoka

Answer: 4. Ashoka

About:

These titles appear in Ashokan inscriptions.

How to solve:

Ruler + inscriptional epithet → Ashoka.

Core:

Ashoka:

Maurya → inscriptions → Dhamma → Devanampriya Priyadarshi

Future angle:

- Dynasty → Maurya
- Capital → Pataliputra
- Major source → rock/pillar inscriptions
- Dhamma → ethical/social policy

Q50. Rowlatt Act

Statements:

- a. Greater/stricter press control
- b. Trial of political offenders by judges without juries
- c. Internment without trial
- d. Martial law throughout India

Options:

1. a and d
2. a, b and c
3. b, c and d
4. All

Answer: 2. a, b and c

How to solve:

Statement d is the trap. Martial law throughout India was not a general provision of the Act.

Core:

Rowlatt Act → 1919 → repressive powers → Rowlatt Satyagraha → Jallianwala Bagh

Future angle:

- Jallianwala Bagh → 13 April 1919
- General Dyer → Jallianwala Bagh
- Rowlatt Satyagraha → Gandhi

Q51. Belgaum Congress Session, 1924

Statements:

- a. All India Khilafat Conference
- b. All India Hindu Mahasabha
- c. All India Non-Brahmin Conference

d. All India Social Conference

Options:

1. a,b,d
2. b,c,d
3. a,c,d
4. All above

Answer: 4. All above

About:

The Belgaum Congress Session of 1924 is particularly important for Karnataka because Gandhi presided over it.

How to solve:

Remember the event as a Karnataka-specific national-movement anchor.

Core:

Belgaum 1924 = Gandhi's only presidency of an Indian National Congress session.

Future angle:

- Year → 1924
- Place → Belgaum
- President → Mahatma Gandhi
- Karnataka significance → major national movement event in Karnataka

Q52. Influences of Karnataka Vaibhava

Statements:

- a. Cultural solidarity among Kannadigas
- b. Inspired freedom fighters
- c. Awareness of Karnataka's glorious past

Options:

1. a and c
2. a and b
3. b and c
4. All above

Answer: 4. All above

About:

The broader idea is Kannada cultural and historical consciousness.

How to solve:

All three are logically connected consequences of cultural awakening.

Core:

Karnataka cultural consciousness contributed to:
language identity + historical awareness + regional solidarity + political mobilisation.

Future angle:

- Karnataka Rajyotsava → 1 November
- Karnataka formation → 1956
- Unification movement → linguistic reorganisation

Q53. Developments between 7th and 5th century BCE

Statements:

- a. Intellectual life was in ferment
- b. Old tribal structure was disintegrating

c. Smaller regional kingdoms had disappeared

Options:

1. a and b
2. b and c
3. a and c
4. All above

Answer: 1. a and b

About:

This was a major period of political, social and intellectual transformation in northern India.

How to solve:

Statement c is too absolute. Smaller states did not simply disappear; the period saw the rise/consolidation of larger territorial states/Mahajanapadas.

Core:

This period connects:

Mahajanapadas + Second Urbanisation + Buddhism + Jainism + changing social structures.

Future angle:

- Mahajanapadas → 16
- Buddhism → Gautama Buddha
- Jainism → Mahavira
- Second Urbanisation → Ganga valley

Q54. Activities in the “constitutional phase” of National Movement

Statements:

- a. Promotion of Khadi
- b. Non-Cooperation Movement
- c. Salt Satyagraha
- d. Struggle against untouchability

Options:

1. a and d
2. a and c
3. b and d
4. c and d

Answer: 1. a and d

About:

The question distinguishes constructive/social work from major mass-movement programmes.

How to solve:

- Khadi → constructive programme
 - Untouchability → constructive/social reform
 - Non-Cooperation → mass movement
 - Salt Satyagraha → mass movement
- a + d

Core:

Gandhian nationalism had two broad dimensions:
mass struggle + constructive programme.

Future angle:

- Non-Cooperation → 1920–22

- Salt Satyagraha → 1930
- Khadi → self-reliance/swadeshi
- Untouchability → social reform

Q55. Facts known to Aryabhata

Statements:

- Earth moves round the Sun
- Reasons for eclipses
- Stars reflected Sun's light
- Planets moved in elliptical paths around Sun

Options:

- a,b,c
- b,c,d
- a,c,d
- a,b,d

Answer: 1. a,b,c

About:

The question highlights Aryabhata's advanced astronomical understanding.

How to solve:

Identify the established contributions and reject elliptical planetary orbits, which are associated with much later developments in astronomy.

Core:

Aryabhata → astronomy + mathematics + Earth's rotation + eclipse calculations.

Future angle:

- Aryabhata → Aryabhataiya
- Ramanujan → number theory
- Brahmagupta → zero/negative numbers and mathematics

Q56. Warm and cold ocean currents

Options:

- a,b
- d,c
- ab,cd
- ad,bc

Answer: 2. d,c (map-coded answer)

About:

The question uses a world map and asks you to identify the warm and cold currents represented by arrows.

How to solve:

This requires reading the map first, then identifying the current's location and direction.

Core:

Ocean currents influence:
coastal temperature + rainfall + fog + fisheries + deserts.

Examples:

- Gulf Stream → warm
- Labrador → cold

- Kuroshio → warm
- Oyashio → cold
- Humboldt/Peru → cold

Future angle:

KPSC can give a current and ask its temperature, coast, direction or climatic effect.

Q57. Sequence of Igneous, Sedimentary and Metamorphic rocks**Statements:**

- Some rocks are relatively soft and yield powder when scratched.
- They contain crystals and no rounded particles.
- Rocks remain broadly in original position but are altered by internal/external forces.

Options:

- a,b,c
- c,b,a
- b,a,c
- a,c,b

Answer: 3. b,a,c

How to solve:

- Igneous → crystals → b
 - Sedimentary → particles/deposition → a
 - Metamorphic → alteration → c
- b-a-c

Core:

Igneous = cooling/crystallisation

Sedimentary = deposition/compaction

Metamorphic = alteration by heat/pressure

Future angle:

- Granite → igneous
- Sandstone → sedimentary
- Marble → metamorphic

Q58. Geomorphic agents and landforms**Options/coded matching:**

- River
- Glacier
- Wind
- Underground water
- Sea waves

Landforms:

- Inselberg
- Natural bridges
- Chasms
- Comb ridge
- Alluvial terraces

Answer: 1 — coded matching as given in the source analysis

How to solve:

This is a matching-by-process question. Start with the strongest associations rather than trying to memorise the entire code.

Core:

Landforms should be learnt as:

Agent → process → landform

Examples:

- River → meanders, terraces, deltas
- Glacier → U-shaped valleys, moraines, aretes
- Wind → dunes, yardangs
- Groundwater → caves, sinkholes
- Sea → cliffs, arches, stacks

Future angle:

KPSC can reverse the question:

landform → agent, which is often easier to confuse.

Q59. Soil formed by weathering under humid tropical conditions, rich in iron and

aluminium oxides

Options:

1. Red soils
2. Laterite soils
3. Tropical Black earths
4. Chernozem soils

Answer: 2. Laterite soils

About:

Laterite develops under high temperature and heavy rainfall, where intense leaching removes many soluble materials

and leaves iron/aluminium oxides.

How to solve:

Humid tropics + intense leaching + iron/aluminium → Laterite.

Core:

- Laterite → heavy rainfall/leaching
- Black soil → basaltic origin, high moisture retention, cotton
- Alluvial → river deposition
- Chernozem → temperate grassland soil

Future angle:

KPSC can ask soil → formation → distribution → crop.

Q60. North-to-South vegetation sequence across Africa

Options:

1. Savanna → Desert → Rainforest → Mediterranean → Savanna → Desert
2. Rainforest → Savanna → Desert → Mediterranean → Savanna → Desert
3. Mediterranean → Rainforest → Desert → Savanna → Desert → Mediterranean
4. Desert → Savanna → Rainforest → Savanna → Desert → Mediterranean

Answer: 4

How to solve:

Think latitude + rainfall:

Sahara → Savanna/Sahel → Equatorial rainforest → Savanna → southern desert → Mediterranean Cape

Core:

Vegetation is controlled mainly by temperature and rainfall, which themselves vary with latitude and atmospheric circulation.

Future angle:

- Sahara → desert
- Congo Basin → equatorial rainforest
- Sahel → semi-arid transition
- Cape → Mediterranean climate

Q61. Lakes and countries

Matching:

- A. Lake Turkana → Kenya
- B. Lake Onega → Russia
- C. Lake Vänern → Sweden
- D. Lake Reindeer → Canada
- E. Lake Michigan → USA

Answer: All five match as above.

How to solve:

Pure map association.

Core:

Important lake associations:

- Turkana → Kenya
- Onega → Russia
- Vänern → Sweden
- Reindeer → Canada
- Michigan → USA

Future angle:

- Largest Great Lake by area → Lake Superior
- Lake Baikal → Russia
- Lake Victoria → Africa

- Lake VICTORIA → Africa
- Titicaca → Peru-Bolivia

Q62. Physiography of India and Karnataka

Statements:

- Indo-Gangetic Plain has an average elevation higher than South India.
- West-flowing Karnataka rivers can be linked from their lower reaches to east-flowing rivers.

Options:

- a only
- b only
- Both
- Both false

Answer: 4. Both false

How to solve:

Statement a is false because the Indo-Gangetic Plain is generally low and flat. Statement b is also not correct as stated.

Core:

Understand India's major physiographic divisions:

Himalayas + Northern Plains + Peninsular Plateau + coastal plains.

Western Ghats form a major water divide for Karnataka rivers.

Future angle:

- Western Ghats → major drainage divide

Q63. Ports and leading products

Matching:

- A. Tuticorin → Fertilizers
- B. Mumbai → Refined petroleum products
- C. Goa → Iron ore
- D. Mangalore → Granite
- E. Cochin → Spices

Answer: 2 — coded matching

How to solve:

Use the strongest associations:

Goa → iron ore; Cochin → spices; Mumbai → petroleum.

Core:

Port questions should be studied as:

Port → State → Coast → Commodity/industry

Future angle:

- Mormugao → Goa
- New Mangalore → Karnataka
- Cochin → Kerala
- Tuticorin → Tamil Nadu

Q64. Aurora Borealis occurs in:

Options:

1. Stratosphere
2. Troposphere
3. Ozonosphere
4. Ionosphere

Answer: 4. Ionosphere

How to solve:

Aurora = interaction of solar particles with the upper ionised atmosphere.

Core:

- Troposphere → weather
- Stratosphere → ozone-rich region
- Ionosphere → ionised particles and auroral phenomena

Future angle:

- Aurora Borealis → Northern Hemisphere
- Aurora Australis → Southern Hemisphere
- Energy source → solar wind

Q65. Ganga Delta is:

Options:

1. Arcuate Delta
2. Estuarine Delta
3. Cuspate Delta

4. Bird's-foot Delta

Answer: 1. Arcuate Delta

About:

The Ganga-Brahmaputra delta is a huge fan/arc-shaped delta.

How to solve:

Shape:

- Arcuate → fan/arc
- Cuspate → pointed
- Bird's-foot → finger-like

Core:

Delta forms through sediment deposition at a river mouth.

Future angle:

- Mississippi → Bird's-foot
- Ganga-Brahmaputra → arcuate
- Estuary → drowned river mouth

Q66. Ethnic/geographical groups correctly matched**Statements:**

- Eskimo – Canada
- Oran – Norway
- Lapps – India
- Gonds – Africa

Options:

- a and b
- a only
- b and c
- d only

Answer: 2. a only

How to solve:

- Eskimo/Inuit → Canada → true
- Lapps/Sámi → Scandinavia → not India
- Gonds → India → not Africa

Core:

Learn tribal/ethnic groups through people + region, not just names.

Future angle:

- Sámi → Scandinavia
- Inuit → Arctic regions
- Gonds → central India

Q67. Rivers believed older than the Himalayas**Statements:**

- Indus
- Ganga
- Brahmaputra
- Sutlej

Options:

- a,b,c

2. b,c,d
3. a,b,d
4. a,c,d

Answer: 4. Indus, Brahmaputra and Sutlej

About:

These are classic examples of antecedent rivers.

How to solve:

Remember the Himalayan antecedent trio:

Indus + Sutlej + Brahmaputra.

Core:

An antecedent river existed before the mountains rose and maintained its course by cutting downward as uplift occurred.

Future angle:

- Antecedent rivers → Indus, Sutlej, Brahmaputra
- Consequent drainage → follows the regional slope
- Himalayan gorges → associated with powerful river incision

Q68. Why are more lunar eclipses visible from a given place?

Options:

1. More lunar eclipses occur in a year
2. Lunar eclipses are visible throughout a hemisphere while solar eclipses are not
3. Lunar eclipses are more publicised
4. Lunar eclipses are always complete

Answer: 2

How to solve:

The key phrase is “from a given place.”

A lunar eclipse can be seen from a much larger portion of Earth’s night side; a solar eclipse is visible only along a narrower path.

Core:

- Lunar eclipse → Earth between Sun and Moon
- Solar eclipse → Moon between Sun and Earth
- Umbra → central/full shadow

Future angle:

KPSC can ask geometry, visibility, umbra/penumbral and total/partial eclipses.

Q69. Karnataka agro-climatic regions are based on:

Statements:

- a. Rainfall pattern
- b. Soil types and relief
- c. Crops produced and marketing
- d. Labour and transport

Options:

1. a,b,c
2. b,c,d

3. a,c,d

4. a,b,d

Answer: 1. a,b,c

How to solve:

Agro-climatic classification is primarily based on natural/agricultural characteristics. Labour and transport are

economic/infrastructural factors, not the primary classification basis here.

Core:

Climate + soil + relief + cropping pattern form the key framework.

Future angle:

KPSC can ask Karnataka region → rainfall + soil + major crop + irrigation/agricultural problem.

Q70. From Equator to Poles:

Statements:

- Variety of plants/animals increases
- Variety decreases
- Temperature increases
- Temperature decreases

Options:

- a,b
- b,c
- a,c
- b,d

Answer: 4. b and d

How to solve:

Latitude increases → solar angle decreases → temperature generally decreases → biodiversity generally decreases.

Core:

Latitude → insolation → temperature → vegetation → biodiversity

Future angle:

- Equator → high biodiversity
- Poles → low biodiversity
- Temperature generally → decreases toward poles

Q71. Joint Sitting of Parliament is presided over by:

Options:

- President
- Chairman of Rajya Sabha
- Speaker of Lok Sabha
- Specially elected chairman

Answer: 3. Speaker of Lok Sabha

About:

Joint sitting is provided under Article 108 to resolve certain legislative deadlocks.

How to solve:

President summons the joint sitting but does not preside over it.

Core:

Article 108 → Joint Sitting → Lok Sabha Speaker

Not applicable to:

- Money Bills
- Constitutional Amendment Bills

Future angle:

KPSC can ask when joint sitting is possible, who presides, and which Bills are excluded.

Q72. Which is NOT a Departmentally Related Standing Committee?

Options:

1. Committee on Welfare of SCs/STs
2. Committee on Social Justice and Empowerment
3. Committee on Labour
4. Committee on Rural Development

Answer: 1

How to solve:

The SC/ST Welfare Committee is a separate parliamentary standing committee, not a DRSC.

Core:

Parliamentary committees include:

financial committees + DRSCs + other standing/ad hoc committees.

Future angle:

- PAC → public expenditure/accounts
- Estimates Committee → budgetary estimates
- DRSC → ministry/department scrutiny

Q73. Correct Commission-Issue combination

Options:

1. Anti-Sikh riots 1984 – Justice Srikrishna
2. Mumbai riots 1992–93 – Justice Nanavati
3. Review of Constitution – Justice Venkatachalaiah
4. Tamil Nadu–Kerala river dispute – Justice Mahajan

Answer: 3. Venkatachalaiah Commission – Constitutional review

How to solve:

Know the strongest associations:

- Srikrishna → Mumbai riots
- Nanavati → 1984 anti-Sikh riots
- Venkatachalaiah → Constitutional review

Core:

Commission questions are best learned as:

Chairperson → issue → year → recommendation/report

Future angle:

KPSC can reverse the question and give the issue first.

Q74. Women's Reservation Bill status at the time

Options:

1. Passed Lok Sabha, awaiting Rajya Sabha
2. Passed Rajya Sabha, awaiting Lok Sabha

3. Introduced in Rajya Sabha
4. Sent to Social Justice Committee

Answer: 3. Introduced in Rajya Sabha (for the period asked)

About:

This is a classic example of a time-sensitive legislative-status question.

How to solve:

Always attach the status to the year of the question.

Core:

The historical Bill sought one-third reservation for women in Lok Sabha and State Assemblies.

Future angle:

- Current constitutional amendment → 106th Constitutional Amendment Act, 2023
- Reservation → one-third
- Applies to → Lok Sabha and State Legislative Assemblies
- Implementation is linked to delimitation after the relevant census process

Q75. Freedom fighter who worked for revival of village/cottage industries

Options:

1. Rajkumari Amrit Kaur
2. Sushila Nayar
3. Vijayalakshmi Pandit
4. Kamaladevi Chattopadhyay

Answer: 4. Kamaladevi Chattopadhyay

About:

Kamaladevi made major contributions to handicrafts, handlooms, cottage industries and cooperative institutions.

How to solve:

Cottage industries/handicrafts → Kamaladevi

Core:

Don't learn personalities only through their freedom struggle. Learn their post-Independence institution-building and social contributions.

Future angle:

- Kamaladevi → handicrafts/handlooms/cooperatives
- Vijayalakshmi Pandit → diplomacy
- Rajkumari Amrit Kaur → public health/women's rights

Q76. Directive Principles are in:

Options:

1. Part III
2. Part V
3. Part IV
4. Part VI

Answer: 3. Part IV

How to solve:

High-frequency Constitution mapping.

Core:

- Part III → Fundamental Rights
- Part IV → DPSP
- Part IVA → Fundamental Duties
- Part V → Union
- Part VI → States

Future angle:

KPSC can ask Part + Article + constitutional category.

Q77. Correct statement about President of India**Options:**

1. President is not part of Parliament
2. President is part of Parliament
3. President is not elected by Electoral College
4. President directly elected by people

Answer: 2

About:

Under Article 79, Parliament consists of the President + Rajya Sabha + Lok Sabha.

How to solve:

A and C/D contradict the constitutional scheme.

Core:

The President is a component of Parliament but not a member of either House.

Future angle:

- Article 79 → Parliament
- President elected by → Electoral College
- Legislative powers → assent, summons, dissolution, ordinance power

Q78. Legislative Council can be created/abolished by:**Options:**

1. Parliament alone
2. State Assembly alone
3. Parliament on recommendation/resolution of State Legislature
4. President on Governor's recommendation

Answer: 3

About:

Under Article 169, the State Legislative Assembly passes the required resolution; Parliament then makes the law.

How to solve:

Remember:

State Legislature initiates → Parliament legislates

Core:

The State Assembly cannot create/abolish a Legislative Council by itself.

Future angle:

- Article → 169
- State Assembly resolution → special majority
- Final law → Parliament

Q79. Which subject is NOT in the Union List?

Options:

1. Citizenship
2. Fisheries
3. Posts and Telegraphs
4. Extradition

Answer: 2. Fisheries

How to solve:

Citizenship, posts/telegraphs and extradition are Union subjects. Fisheries → State List.

Core:

Three lists:

Union + State + Concurrent

Also remember:

residuary powers → Union Parliament.

Future angle:

- Police → State
- Defence → Union
- Education → Concurrent
- Fisheries → State

Q80. Treaties and Parliament**Options:**

1. Constitution provides for ratification of all treaties by Parliament
2. Constitution does not provide for general parliamentary ratification
3. Ratification under certain circumstances only
4. Treaties but not conventions

Answer: 2

About:

India does not have a general constitutional requirement that every international treaty must be ratified by Parliament.

How to solve:

Avoid the absolute statement “all treaties must be ratified.”

Core:

Distinguish:

treaty-making power from domestic implementation.

Future angle:

- Article 253 → Parliament can legislate to implement international agreements.
- Executive power relating to treaties → connected with Article 73.

Q81-100

QUESTIONS 81-100

Q81. Why was NCTC opposed by many Chief Ministers?

Statements:

- Takes away State power over law and order
- Can investigate/take action without informing States
- Adversely affects federal structure
- States lose all anti-terror powers

Options:

- a,d
- c,d
- a,c
- b,c

Answer: 3. a and c (as keyed in the earlier analysis)

About:

The central issue was Centre-State relations because police and public order are State subjects.

How to solve:

Reject absolute d. Focus on the federalism concern.

Core:

This question connects:

national security + State police powers + federalism + central agencies.

Future angle:

- Police → State List
- Public order → State List
- NIA → central counter-terror investigation agency
- Federalism → distribution of constitutional powers

Q82. 1980 Supreme Court case striking down amendments giving unlimited Parliament

power under Article 368

Options:

- Minerva Mills
- Kesavananda Bharati
- Golaknath
- Bommai

Answer: 1. Minerva Mills

About:

Minerva Mills (1980) strengthened the Basic Structure principle and protected judicial review and limited amending power.

How to solve:

Chronology:

Golaknath → Kesavananda Bharati → Minerva Mills

Core:

- Golaknath → Parliament's power to amend Fundamental Rights

- Kesavananda → Basic Structure Doctrine
- Minerva Mills → limited amending power/judicial review
- S.R. Bommai → Article 356/federalism/secularism

Future angle:

KPSC frequently asks case → year → constitutional principle.

Q83. Justice Somashekar Committee investigated:**Options:**

1. Attack on churches
2. Denotification of land
3. Illegal mining
4. BPL-card irregularities

Answer: 3. Illegal mining

About:

This is Karnataka-specific current affairs.

How to solve:

Committee → issue association.

Core:

For Karnataka committees, learn:

committee/chairperson → issue → year → major finding/recommendation.

Future angle:

KPSC can ask the same committee in reverse:

“Which committee investigated illegal mining?”

Q84. Right to livelihood in DPSP is based on:**Options:**

1. Socialist principles
2. Gandhian principles
3. Liberal principles
4. Anarchic principles

Answer: 1. Socialist principles

How to solve:

DPSPs are broadly classified into:

Socialist + Gandhian + Liberal-intellectual.

“Anarchic” is not a category.

Core:

Socialist principles emphasise economic justice and welfare.

Examples:

- Article 39(a) → adequate means of livelihood
- Article 39(b)/(c) → distribution/economic concentration
- Article 41 → right to work/education/public assistance within State capacity

Future angle:

KPSC can ask Article → principle → classification.

Q85. True spirit of bicameralism

Options:

1. One-third Rajya Sabha members retire every two years
2. President nominates experts
3. Lok Sabha represents people; Rajya Sabha represents States
4. Rajya Sabha cannot initiate Money Bills

Answer: 3

About:

The fundamental purpose of bicameralism is different forms of representation and legislative review.

How to solve:

A, B and D are true features, but C explains the reason for having two Houses.

Core:

- Lok Sabha → popular representation
- Rajya Sabha → representation of States
- Rajya Sabha → permanent House
- One-third members retire every two years

Future angle:

Compare the Houses on:

election, tenure, Money Bills, constitutional amendments, federal role and special powers.

Q86. Lowest national-income measure in 2010-11**Options:**

1. GDP at market prices
2. GDP at factor cost/current prices
3. GDP at factor cost/constant prices
4. NDP at market prices

Answer: 4. NDP at market prices

How to solve:

NDP = GDP – depreciation, so a net measure is lower than the corresponding gross measure.

Core:

- GDP → gross domestic production
- NDP → GDP – depreciation
- Nominal → current prices
- Real → constant prices

Future angle:

Also distinguish:

GDP → GNP → NDP → NNP → GVA.

Q87. Fiscal deficit and primary deficit would be equal if:**Options:**

1. Major subsidies were zero
2. Defence expenditure was zero
3. Recovery of loans was zero
4. Interest payments were zero

Answer: 4. Interest payments were zero

How to solve:

Primary Deficit = Fiscal Deficit – Interest Payments

For both to be equal:

Interest payments = 0

Core:

Remember the three major deficit relationships:

- Revenue deficit
- Fiscal deficit
- Primary deficit

Future angle:

- Primary deficit → Fiscal deficit – interest payments
- Fiscal deficit → borrowing requirement
- Revenue deficit → revenue expenditure – revenue receipts

Q88. Direct Taxes Code Bill 2010 aimed to consolidate:

Options:

1. Income-tax laws only
2. Wealth-tax laws only
3. Direct-tax laws and replace Income Tax Act + Wealth Tax Act with one legislation
4. Direct-tax laws but with separate legislation

Answer: 3

About:

The proposed DTC sought to consolidate and integrate direct-tax laws.

How to solve:

The phrase “consolidation and integration” points to a unified direct-tax framework.

Core:

Direct tax reform is about:

simplification + consolidation + reduced ambiguity + broader coherent tax framework.

Future angle:

- Direct tax → income tax etc.
- Indirect tax → GST/customs etc.
- GST → indirect tax reform
- Current tax reforms → distinguish old DTC proposal from later tax legislation/reforms.

Q89. Food inflation in WPI was measured by:

Options:

1. Food Index — primary food articles
2. WPI of manufactured food products
3. WPI of primary goods
4. Food Index — primary food articles + manufactured food products

Answer: 4

About:

The question concerns the food component of the Wholesale Price Index framework used at that time.

How to solve:

“Food Index” is broader than merely primary food articles.

Core:

Inflation questions require knowing:

Index → basket → base year → classification

Future angle:

- CPI → consumer prices
- WPI → wholesale prices
- Core inflation → generally excludes volatile food and fuel
- Base effect → changes the measured inflation rate because of the comparison base.

Q90. 32% priority-sector lending target applied to:**Options:**

1. Public-sector banks
2. Private-sector banks
3. Foreign banks with offices in India
4. Domestic scheduled commercial banks

Answer: 3. Foreign banks (under the norms applicable at that time)

About:

Priority-sector lending directs institutional credit toward sectors considered important for inclusive development.

How to solve:

The 32% figure is a historical policy-specific figure; it cannot be derived conceptually.

Core:

Priority sectors have included areas such as:

agriculture + MSMEs + weaker sections + other specified sectors.

Future angle:

- PSL regulator → RBI
- Why PSL? → direct credit toward priority areas
- Important caution → current PSL targets/categories have changed from the 2011 framework

Q91. Credit-rating agencies for India's sovereign rating include:**Options:**

1. Standard & Poor's
2. National Stock Exchange
3. S&P CNX Nifty
4. Bombay Stock Exchange

Answer: 1. Standard & Poor's

How to solve:

Classify the options:

- S&P → rating agency
- NSE/BSE → exchanges
- Nifty → index

Core:

Major global credit-rating agencies:

S&P + Moody's + Fitch

A sovereign credit rating broadly assesses creditworthiness/default risk.

Future angle:

KPSC can ask agency → function, or distinguish:
rating agency vs stock exchange vs market index.

Q92. Insurance penetration means:

Options:

1. Premium / population
2. Premium / GDP
3. Life premium / health-risk population
4. Non-life premium / total assets

Answer: 2. Premium / GDP

How to solve:

Remember the distinction:

Penetration → economy

Density → population

Core:

- Insurance penetration = premium as % of GDP
- Insurance density = premium per capita
- Regulator → IRDAI

Future angle:

KPSC can directly ask penetration vs density, a common conceptual trap.

Q93. BRIC countries

Options:

1. Bangladesh, Russia, Ireland, Congo
2. Belgium, Romania, Iran, Canada
3. Brazil, Russia, Italy, China
4. Brazil, Russia, India, China

Answer: 4. Brazil, Russia, India and China

About:

BRIC was the grouping of four major emerging economies. South Africa later joined, creating BRICS.

How to solve:

D is the only correct expansion.

Core:

BRIC → Brazil + Russia + India + China

BRICS → BRIC + South Africa

Future angle:

- BRICS development bank → New Development Bank
- Headquarters → Shanghai
- Expansion → additional members beyond original five

Q94. India's current account does NOT include:

Options:

1. Exports and imports
2. Non-factor services and transfers
3. Income from factor services
4. Foreign Direct Investment

Answer: 4. Foreign Direct Investment

How to solve:

Ask whether the item belongs to trade/income/transfers or investment flows.

Core:

Current account broadly covers:

goods + services + primary income + transfers

FDI belongs to the financial account, not the current account.

Future angle:

- Merchandise exports → current account
- Services → current account
- Remittances → current-account transfer
- FDI → financial account

Q95. India's service exports since 2000-01 largely contributed by:**Options:**

1. Business services
2. Financial services
3. Software services
4. Communication services

Answer: 3. Software services

About:

India's IT/software sector became a major source of service exports and foreign-exchange earnings.

How to solve:

India's strongest globally recognised service-export advantage → IT/software.

Core:

Software exports connect:

skilled human capital + services trade + foreign exchange + global outsourcing.

Future angle:

KPSC can ask about:

- IT/ITeS
- services exports
- balance of payments
- India's comparative advantage.

Q96. Which statement was NOT correct regarding FDI in retailing on 10 January 2012?**Options:**

1. FDI in cash-and-carry wholesale trading is permitted
2. FDI in single-brand retailing allowed up to 100%
3. FDI in multi-brand retailing is prohibited
4. FDI in both single-brand and multi-brand retailing is allowed

Answer: 4

How to solve:

The question says "NOT correct."

A, B and C represented the policy context of that period; D incorrectly combines single- and multi-brand retail.

Core:

Never study retail FDI without separating:

single-brand + multi-brand + wholesale cash-and-carry

Also attach percentage + route + year, because policy changes.

Future angle:

- Single-brand → up to 100% under specified conditions
- Multi-brand → up to 51% under specified conditions/government route
- Wholesale cash-and-carry → separate category

Q97. “Swabhimaan” was a:

Options:

1. Social inclusion programme for poverty alleviation
2. Education inclusion programme
3. Social welfare programme for elderly
4. Financial inclusion programme using technology/branchless banking

Answer: 4

About:

Swabhimaan was a financial inclusion initiative aimed at extending banking access to underserved populations using technology-enabled/branchless approaches.

How to solve:

Banking access + technology → financial inclusion.

Core:

Financial inclusion means access to:
banking + savings + payments + credit + other financial services.

Future angle:

Connect the evolution:

Swabhimaan → Jan Dhan → DBT → digital payments/UPI

- PMJDY → financial inclusion
- DBT → direct transfer of benefits
- UPI → digital payments infrastructure

Q98. Decadal population growth during 2001-2011

Options:

1. 17.64%
2. 16.64%
3. 15.64%
4. 14.64%

Answer: 1. 17.64%

How to solve:

Direct Census data.

Core:

Keep the Census 2011 cluster together:

- Population → about 121 crore
- Decadal growth → 17.64%
- Density → 382/km²
- Overall sex ratio → 943
- Literacy → 74.04%

Future angle:

KPSC can give one figure and ask which Census indicator it belongs to.

Q99. Child Sex Ratio — 2001 vs 2011

Statements:

- Declined from 927 to 914
- Decline significant in J&K and Rajasthan
- Sex ratio improved in Punjab
- Child sex ratio increased in Maharashtra

Options:

- a only
- a,b,c
- a,c,d
- a,b

Answer: 2. a,b,c

How to solve:

Verify each statement separately. The question is designed to punish “overall impression” solving.

Core:

Child Sex Ratio = females aged 0–6 per 1,000 males aged 0–6.

Don't confuse it with the overall sex ratio.

For Census 2011:

- Overall sex ratio → 943
- Child sex ratio → 919

Future angle:

KPSC can ask:

- overall sex ratio vs child sex ratio
- state with highest/lowest
- reasons for decline
- gender discrimination/sex-selection/nutrition/healthcare.

Q100. Rashtriya Krishi Vikas Yojana (RKVY)

Statements:

- Introduced during 11th Five Year Plan
- Funds provided as 100% Central grant
- Comprehensive District Agricultural Development Plans
- Encourages more investment in agriculture

Options:

- a and b
- a,b,c
- b,c,d
- b and c

Answer: 3. b,c,d (paper's intended/keyed answer)

Important note:

This is one question where I would retain the paper's keyed answer but flag the historical nuance. RKVY was indeed

launched in 2007–08 during the 11th Five Year Plan, and historical documents describe the 100% Central grant and

planning features. So statement a is historically defensible, even though the paper's coded answer is C.
We should not
teach an incorrect concept merely to fit an old key.

About the question:

RKVY was designed to encourage higher public investment in agriculture and allied sectors, with State/District-level agricultural planning.

How to solve:

Recognise the three strong conceptual features:

- Central assistance → yes
- District Agricultural Plans → yes
- More agricultural investment → yes

Then notice the paper's options/key do not perfectly accommodate the historical fact in (a).

Core:

RKVY → 2007-08 → agricultural investment → State/District Agriculture Plans → agriculture + allied sectors.

The important thing for future exams is to understand the scheme's objective and evolution, not memorise the old

funding arrangement permanently.

Future angle:

- RKVY launched → 2007-08
- Main objective → increase investment in agriculture and allied sectors
- District Agriculture Plans → key planning mechanism
- Later evolution → RKVY-RAFTAAR
- Current questions should distinguish the original RKVY framework from later revisions.

What I have changed from the earlier version

This is now the final style I recommend for the 2011 PDF:

☐ Removed

Future Memory

☐ Kept

Question → Options → Answer → About → How to Solve → Core → Future Angle

And the important refinement:

Core is not long.

It gives only the few connected facts that make the PYQ genuinely useful.

For example:

Insurance penetration = premium/GDP

is enough to answer Q92.

But adding:

Insurance density = premium per capita

is worthwhile because it is the most likely confusion KPSC can exploit.

That's the level of additional information I will use.

Likewise:

Joint Sitting → Article 108 → Speaker

is the core.

Adding:

Money Bills and Constitutional Amendment Bills are not subject to joint sitting

is worthwhile because it is a high-value future trap.

But I will not add an entire textbook chapter on Parliament.

That is the balance I'll maintain throughout.

One more important point: where an old question is tied to a 2011-era figure, policy or legislative status, I will clearly

label the historical answer and, where useful, give the present position separately. That prevents the student from

carrying an obsolete 2011 fact into the next KAS exam.

FINAL REVISION FLOW

Revise the paper in this order: identify the question type → recall the key fact → understand the core concept → practise the future-angle conversions. This keeps current-affairs facts connected to static syllabus areas.

1	Question type	Current affair / factual recall / statement / matching / conceptual
2	Answer anchor	Person • place • year • organisation • number • term
3	Core concept	Convert the one-time PYQ fact into a reusable syllabus concept
4	Future angle	Practise likely reverse questions and related facts
5	Final revision	Revise the answer anchor + core concept together
